ZINC
and
LEAD

LIMITED.

CAPITAL - - - \$600,000

Divided into 120,000 Shares at \$5.00 Each;
Full-paid and Non-assessable.

In view of the very substantial position now occupied by this company, the directors have decided to discontinue the sale of the stock at \$4 after Saturday, April 22d, 1899, and the price will therefore

Advance to \$5.00
per share at the close of business on that day, 4.00 o'clock P. M.

The company is in a very satisfactory financial condition. The mine is of the most encouraging character, development work is progressing steadily (twenty more men, with complete outfit, teams, etc., were added to the development force the past week), and every indication is of successful operation and good returns.

The great 200-pound nugget taken from the Val Verde mine, Col. mine, Copper Queen No. 3, arrived in Boston April 14th, and is now on exhibition at the company's offices.

Our subscription books contain the names of a number of gentlemen connected with the mining business in various capacities, or already interested in other copper properties, and who are, therefore, competent judges as to copper investments. For instance, among the subscriptions received during the past week were two of 1000 shares each, from prominent officials of the two largest copper mines in the world; and we feel that such subscriptions are the most substantial practical endorsements of the value of our properties that could possibly be received.

All estimates as to the profits from this company's operations have been based on a selling price of 12 cents a pound for copper. The current market figures (18 1/2c) would more than double the net profit, and enable the payment of 45 per cent. dividends, instead of the 24 per cent. estimated, and such high authorities as Mr. Leonard Lawson, the London, Eng., Statist, and many others, see for the near future at least only a continuance of the present prices.

We believe that the stock of the Val Verde Copper Co., Ltd., represents properties that absolutely ensure safety and practically immediate profits, and that, especially at its low capitalization, this company offers the best investment at present before the public.

As the issue of stock is limited, the right is expressly reserved to reduce the amount of or to decline any application.

Checks made payable to the order of VAL VERDE COPPER CO., LTD., should accompany application in order to secure allotment.

Mail orders for stock at \$4.00 must bear postmark not later than the hour above named—P. M., April 22nd, 1899.

Subscription blanks, prospectus, etc., mailed on request, or may be obtained at our offices, where specimens of the ore, smelter returns, maps, etc., may also be seen.

PEOPLE'S TELEPHONE COMPANY,
OF NEW ORLEANS, LA.

Denomination, \$500. Interest, October 1 and April 1.

CENTRAL TRUST COMPANY, New York,
TRUSTEE.

PRICE 105 AND INTEREST
(\$525 and Interest, each Bond.)

The People's Telephone Company of New Orleans, La., operates under an exceptionally favorable franchise from the city. The Bonds are secured by a mortgage on the franchise, contracts, equipment and entire property of the Company. The mortgage authorizes an issue of \$300,000 of Bonds on a plant of 3,000 telephone instruments. The present condition of the Company is shown in the following letter from Mr. Wm. P. Curtis, the Vice-President and General Manager:

NEW ORLEANS, LA., April 10, 1899.

The present condition of the People's Telephone Company of New Orleans is as follows:

3,000 subscribers. Annual contract income.....	\$130,000
Annual expenses.....	\$55,000
9% interest on \$300,000 bonds.....	\$18,000
Sinking fund.....	15,000 33,000 58,000
Surplus profits.....	\$42,000

The number of subscribers is rapidly and steadily increasing, and will reach 4,000 within a year. The Company has the enthusiastic support of the people and municipal authorities.

Also the following letter from Mr. Thos. F. Ahern, the eminent electrician, who is consulting engineer for the Company, and who has laid out and supervised the construction of the plant:

NEW ORLEANS, LA., April 10, 1899.

In my twenty years of telephone experience, I have never known a better telephone situation than in New Orleans. The construction work and equipment of the People's Telephone Company is of the highest possible character. The system used is pure metallic, and the wires in the business section are in underground cables. The cost of maintenance is amply covered in the figures given in Mr. Curtis' letter. I regard the earning power as shown above as conservative, and believe it will increase.

A part of the issue having been placed abroad, we now offer the \$200,000 remaining at 105 and interest. Having examined the legal and physical features of the Company, we recommend these Bonds to investors. We reserve the right to reject any applications, or to allot smaller amounts than those applied for.
